

2001 Small Business Profile: RHODE ISLAND

That the small business sector is as an economic engine indispensable to Rhode Island's well being is apparent in the *2001 Small Business Profile*, compiled by the U.S. Small Business Administration's Office of Advocacy. The results in this report show that small businesses are job generators and innovators, and that they represent an array of opportunities to the diverse spectrum of individuals in their communities.

Number of Businesses. In 2000, the number of employer businesses increased by 1.4 percent, and it is estimated that the number of self-employed individuals decreased by 13.7 percent. There were 32,666 employer businesses, and nearly 96.8 percent were small (with fewer than 500 employees) in 2000. Self-employed persons were estimated at 23,299 in 2000. Women-Owned Businesses. Women-owned businesses generated \$2.7 billion in revenues, employed 28,678 workers, and constituted 19,900 firms or 24.6 percent of all firms in 1997. The data on women-owned firms are not comparable between 1992 and 1997. (Sources: U.S. Dept. of Labor, Bureau of Labor Statistics, U.S. Dept. of Commerce, Bureau of the Census)

Minority-Owned Businesses. According to the latest (1997) Census data, a total of 4,800 minority-owned businesses represented 5.9 percent of the businesses in the state and generated \$0.6 billion in revenues. Of these, 1,100 were employer businesses employing a total of 7,158 workers. There were 2,200 Hispanic-owned firms; 1,300 Black-owned businesses; 1,100 Asian and Pacific Islander-owned firms; and 600 American Indian and Alaskan Native-owned businesses in 1997. (The data on minority-owned firms are not comparable between 1992 and 1997.) Data may not sum to the total because an owner may be a member of more than one minority group. (Source: U.S. Dept. of Commerce, Bureau of the Census)

Business Turnover. There were 2.9 percent or 3,675 more new employer firms in 2000 than in 1999. Business bankruptcies totaled 74 in 2000, a decrease of 36.2 percent since 1999, while business terminations amounted to 4,170, an increase of 4.6 percent from 1999. (Sources: U.S. Dept. of Labor, Employment and Training Administration; Administrative Office of the U.S. Courts; U.S. Dept. of Commerce, Bureau of the Census)

Employment. Small business employment represented 57.9 percent of the state's total employment and firms numbered 24,558 in 1998. Small businesses employed 232,970 of the state's 402,485 total non-farm private sector workers (Table 1). (Source: U.S. Dept. of Commerce, Bureau of the Census, Statistics of U.S. Businesses)

Small Business Income. The non-farm proprietors' share of small business income totaled \$1.8 billion—an increase of 6.8 percent from \$1.7 billion in 1999. (Source: U.S. Dept. of Commerce)

Finance. Small businesses often rely upon local bank services, and the number of banks within the state has decreased over the last five years. The Office of Advocacy has published banking studies identifying banks within the state that are small-business-friendly. (See Table 2 for the number of banks by asset size.) Small businesses seeking loans should also consider lenders that participate in the SBA's preferred or certified loan programs; for a list of these lenders, call the Small Business Answer Desk at (800) 827-5722.
